CURRICULUM VITAE

Dr. Mehmet Fatih Özmen is a Prosthodontist who first completed his dental degree at Yeditepe University Faculty of Dentistry in 2013 before specializing in prosthetic dentistry at Atatürk University in 2021. Throughout his specialization training, he has studied cosmetic dentistry; fixed and removable dentures; implant overdentures as well as temporomandibular joint disorders, and gum contouring. Dr. Özmen also presented 6 papers at various international conferences written by himself. Alongside that, he has 4 articles published in local and international scientific journals. He has been a member of TDB (Turkish Dental Association) since 2015 and he was a member of ITI (International Team for Implantology) in 2019 and 2020.

Full Name: Mehmet Fatih ÖZMEN
Speciality: Prosthetic Dentistry

Education:

Degree	Field	University	Year
Lisans	**Faculty of Dentistry**	**Yeditepe University**	**2013**
Uzmanlık	**Department of Prosthodontics**	**Atatürk University**	**2021**

Publications & Proceedings

Articles published in international peer-reviewed journals

1) Başak SS, Özmen MF, Sağsöz Ö., Bayındır F. Effect of thermo-cycling on microhardness of CAD-CAM provisional materials. International Journal of Applied Dental Sciences. 2020;6(4): 254-257.

2) Özdoğan A., Özmen MF. Effect of two different disinfectant agents on the wettability of elastomeric impression materials. Journal of Dental Materials and Techniques. 2020;9(3):130-138.

Articles presented at international scientific conferences and published in the proceedings book

1) Özmen MF, Bayındır F. Peri-Implant Soft Tissue Healing Using Provisional Restorations After Flapless Postextraction Socket Implant Placement. (ICP EPA Meeting, Amsterdam, Netherlands, September 04 - 07 2019)

2) Özmen MF, Bayındır F. Multidisciplinary Management Of Missing Maxillary Lateral Incisors In Patient With Oblique Occlusal Plane: Case Study. (ICP EPA Meeting, Amsterdam, Netherlands, September 04 – 07 2019)

3) Özmen MF, Bayındır F. Implant supported prosthesis rehabilitation in a patient with a history of cleft lip and palate (Case report). (6th Turkish Foundation of Prosthodontics and Implantology Dicle Symposium, Diyarbakır, Turkey, November 02 - 04 2018)

4) Sancaktar Ö, Özmen MF, Bayındır F. Temporomandibular disorders severity and prevalence in Turkish Dental students. (International Asociation of Dental Research congress, London, UK, July 25 - 28 2018)

5) Özmen MF, Sancaktar Ö, Bayındır F. Is there any difference between dentists in assessing temporomandibular joint problems? (International Asociation of Dental Research congress, London, UK, July 25 - 28 2018)

6) Özmen MF, Bayındır F. Stress distributions created by short and regular implants placed in the anterior maxilla at different angles, part 1: a finite element analysis (ICP-TPİD Joint Meeting, Mugla, Turkey, November 04 – 07 2021)

Articles published in national peer-reviewed journals

1) Şahin Z, Özmen MF, Yanıkoğlu N. Prosthetic rehabilitation with Andrews bridge system in patients with a vertical defect: Two case reports. Ataturk University Dentistry Faculty Journal. 2020;30(2): 306-311.

2) Özmen MF, Bayındır F, Sancaktar Ö. Are there any differences between dentists in evaluating temporomandibular joint problems? Journal of Atatürk University Faculty of Dentistry.

Projects

1) Investigation of the stress distribution in short and normal implants placed at different angles in the anterior maxillary region by finite element stress analysis method, Higher Education Institutions Supported Project, BAYINDIR F. (Executive), ÖZMEN M. F.
